Members of SGA

JOHNS MANVILLE SLOVAKIA a.s.
Trnava

- production of glass fibres and products based on them
- <http://www.jm.com/>

KNAUF INSULATION s.r.o. Nová Baňa

- production of mineral fibres
and products based on them
(rock mineral wool)
- <http://www.knaufinsulation.sk/>

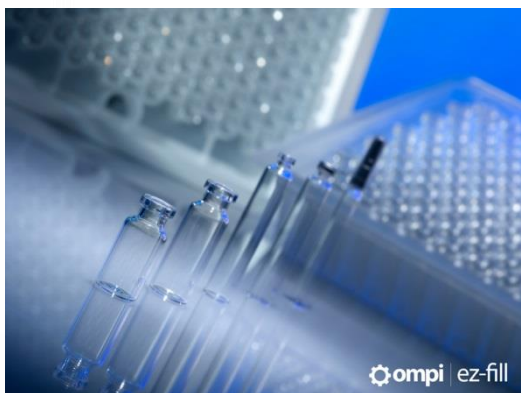

MEDICAL GLASS a.s.

Bratislava

- production of glass ampoules and vials for pharmaceutical industry
- <http://www.ompipharma.com>

RONA a.s. Lednické Rovne

- hand-made and machine-made production and decorating of tableware and hotel glass
- <http://www.rona.sk>

RONA

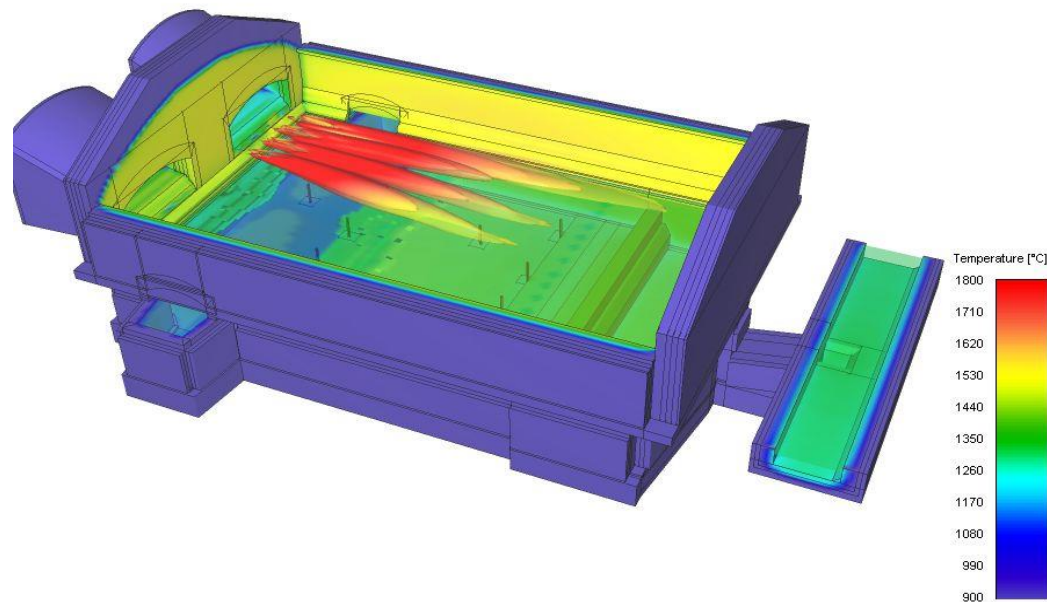

VETROPACK Nemšová s.r.o.

- production of container glass from flint and green glass for beverages and food
- glass recycling
- <http://www.vetropack.sk>

GLASS BOOSTING TECHNOLOGY s.r.o. Nemšová

- service organization
- secures and implements electrical boosting for glass melting

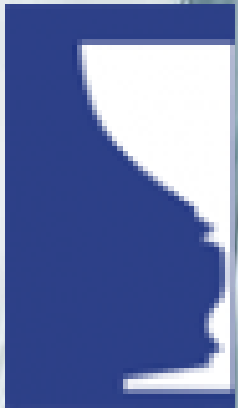

Schools, educational, research, academic
institutes and organizations

Secondary Glass School

Lednické Rovne

- education of experts for middle level
and workers' profession in the glass
industry
- <http://www.sossklarska.sk>

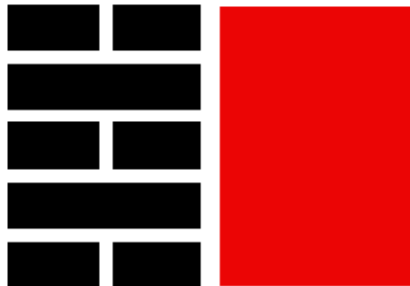

Faculty of Metallurgy TU Košice

Department of Ceramics

- education of experts in the field of ceramic materials, development of new technologies and optimization in the process of ceramic production
- <http://web.tuke.sk/hf-kk/>

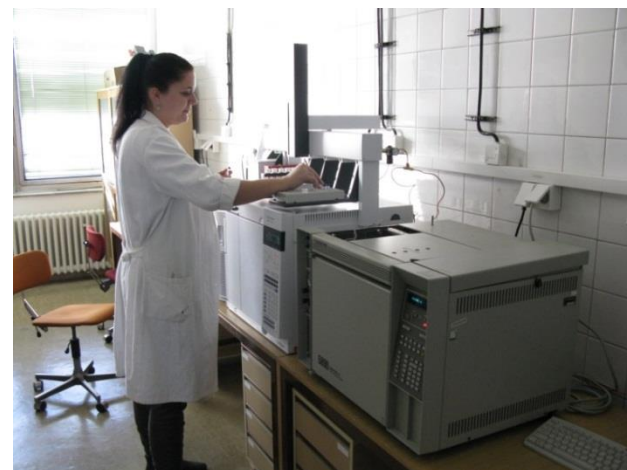

Faculty of industrial technologies Alexander Dubček University of Trenčín Púchov

- education of experts for the glass industry
- <http://www.fpt.tnuni.sk>

Faculty of Chemical and Food
Technology STU Bratislava
Institute of inorganic chemistry,
technology and material
Department of ceramics, glass and
cement

– <http://www.fchpt.stuba.sk>

VITRUM Laugaricio (VILA)

Centre of competence for glass research
Trenčín

- Joint Glass Center of:

Institute of Inorganic Chemistry SAV Bratislava

Alexander Dubček University of Trenčín

Faculty of Chemical and Food Technology STU Bratislava

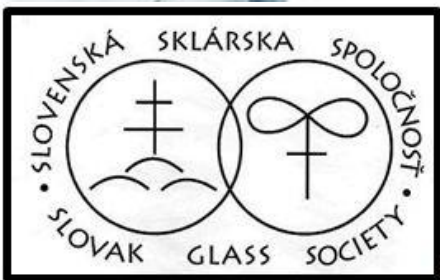

- development of the basic research in the fields related to glass, its production and decorating

- <http://www.tnuni.sk>

Slovak Glass Society

- arranges specialized workshops, conferences, consulting and advisory work, promotion of Slovak glass industry, science and research in the homeland and abroad
- <http://www.slovenskasklarskaspolocnost.sk>

An abstract graphic on the left side of the slide, featuring a vertical blue line and several diagonal lines that create a sense of depth and movement, resembling a glass structure or a stylized 'V' shape.

Vision

- Application of BAT technologies in Slovak glass industry
- Ecological production focused on the decrease of emissions (SO₂, COX, NOX) and waste
- Increase % of glass recycling
- Promotion of glass and glass products
